ACCESSORIES

Powerdock – Flip top power insert with configurations allowing for Data and GPO as required

Boomerang Table

Boomerang is a table series that allows you to customise tables to all needs from the smallest table to biggest table configurations.

The five injection moulded & polished aluminium Boomerangs are used both as feet and support for tabletops, building stability and making space for the wire management under the tabletops.

Flip Tables

We offer elegant and functional table frame designs that compliment our range of table tops.

With a wide range of styles and sizes, we will have a solution for your needs.

Square

Rectangular

Round

Oval

Boat shaped
